We also learned, that at no time during the day or night, are the pupils from under the watchful eyes of the good sisters. As to the course of instruction in every department, it could not be surpassed, and one very superior advantage is that only sickness or death necessitates a change of teacher. death necessitates a change of teache or cean necessitates a change of reacher Each sister carries her class through the entire course, and graduating honors are conferred on those only who have thor oughly completed the prescribed course of studies.
